Github: github.com/Antriksh55 Mobile: +91-6202069038

Skills

- **Languages**: C++ , JavaScript, Java, Python (Basics for Automation & Scripting)
- **Core CS:** Data Structures and Algorithm, OOPs, Operating System, Computer Networks
- **Frameworks**: HTML, CSS, Bootstrap, Tailwind CSS, React.js, Node.js, Express.js, MongoDB
- **Tools/Platforms**: Git, GitHub, Postman, Linux CLI,Netlify / Vercel (Deployment), Docker, Kubernets, Playwright/Selenium
- **Soft Skills**: Critical Thinking, Agile Collaboration, Cross-Functional Teamwork, Adaptability to Change, Time & Task Prioritization, Initiative, Time & Task Prioritization

Internship

Freelance Web Developer – TFMM E-Commerce Platform |GitHub April 2025

Client: Local Retail Pizza Shop

- Developed a full-stack e-commerce web application for a local retail pizza shop as a paid freelance project, enabling online ordering, product catalog management, and real-time order tracking.
- Built a secure backend using **Node.js & Mongodb**, implementing smooth API workflows for customer orders, admin operations, and inventory updates.
- Designed and developed a fully responsive and user-friendly interface using **HTML**, **JavaScript**, and **Tailwind CSS**, improving customer engagement and cross-device usability.
- Implemented **secure authentication and role-based access control (JWT)** for admin and customers, ensuring protected transactions and restricted access to critical features.

Tech Stack: Node.js, MySQL, HTML, CSS, JavaScript, Tailwind CSS

Projects

Mini Search Engine | GitHub March 2026

- Built a production-level Search Engine Backend using Node.js , Express , and Elasticsearch with features like full-text search, relevance ranking, fuzzy matching, pagination, and autocomplete across indexed documents.
- Integrated Redis caching layer to store frequent search results in-memory, reducing repeated Elasticsearch queries and improving response time by up to 50x on cache hits.
- Designed RESTful APIs following MVC architecture with input validation, global error handling,rate limiting and request logging for production-grade reliability.
- Implemented analytics module to track click events, popular search queries, and per-user search history using MongoDB,with fire-and-forget async recording to avoid impacting search response time

Tech Stack: Node.js, Express.js, Elasticsearch, MongoDB, Redis, Docker

Ride booking Testing Platform with Playwright Automation | GitHub October 2025

- Built and automated an end-to-end testing suite using Playwright across Chromium, Firefox and WebKit with features like retry handling and automatic screenshot capture for failed cases to ensure reliable cross-browser validation.
- Established a **test isolation mechanism** using a beforeEach hook to reset application state, clear active sessions and cancel ongoing rides, guaranteeing independent and consistent execution of all test cases.
- Developed a **full-stack ride booking system** (Node.js, Express, MongoDB) as the test environment, incorporating real-world challenges such as concurrent driver allocation and handling race conditions through optimized database operations.
- Created a **custom testing dashboard** enabling one-click execution live test logs,real-time result tracking, and integration with Playwright HTML reports, showcasing complete ownership from test creation to result visualization.

Tech Stack: Playwright, Node.js, Express.js, Mongo DB, JavaScript, Tailwind CSS

Certificates

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate certification | Link — February 2026
Java with OOPs Programming Language – CIPHER SCHOOL | Link — June 2025 – July 2025
Cloud Computing – NPTEL | Link — January 2025 – April 2025
Introduction to Hardware and Operating Systems – IBM — September 2024
The Bits and Bytes of Computer Networking – GOOGLE — September 2024

Achievements

BinaryBlitz Hackathon 2024 – Round 3 Qualifier:

Attended the BinaryBlitz Hackathon 2024 and progressed to **Round 3** by solving multiple challenging problem statements under time constraints

Education

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.67*** *Since January 2026*

Pragya Niketan Public School Sasaram, Bihar
Intermediate; ***Percentage: 66%*** *March' 2022*

***ABR Foundation* School** Sasaram, Bihar
Matriculation; ***Percentage: 80 %*** *March' 2020*
